OF YOUR
HOME

WHY WE ARE THE PERFECT FIT FOR YOU . . .

COMMITMENT TO QUALITY

Adamson Sliding Doors have been manufacturing made to measure sliding wardrobe doors. We have built an enviable reputation for quality and outstanding service. Our doors are hand made to fit your exact space to ensure a perfect fit.

We work from our own factory which is staffed by a highly skilled team of experts who are committed to helping to achieve our guarantee that our work will always be of the highest standard.

At Adamson Sliding Doors, not only will you be getting first class customer service throughout the process you will also receive great quality sliding wardrobe doors and our aftercare service is second to none.

MADE TO MEASURE DOORS

With an extensive range of mirrors, coloured glass and wooden panel finishes you're sure to create a door combination that fits your style and measurement requirements.

Our made to measure sliding doors include; classic frames and shaker frames. By providing a choice of materials we can ensure that our customers have the best possible options for their creations.

QUALITY SLIDING SYSTEM

High quality rollers are mounted to the bottom of the door. Our doors are bottom weight bearing and roll along the track smoothly which is secured to the floor - unlike many systems which are hung from the ceiling by top rollers. We simply have a quiet top guide in place to ensure a reliable gliding action.

CLASSIC FRAME DOORS

CHOOSING A QUALITY SLIDING CLASSIC FRAME DOOR PRODUCT:

Our Classic Range offers versatile and quality doors, with a concave rounded shape for comfortable opening and closing.

Choose your frame finish, then either compliment with matching wood effect panels or make a bold statement with contrasting wood colour or glass panels in any combination.

The Classic Range will meet your demands whether it's a traditional or contemporary style you prefer.

WARDROBE MEASURING DETAILS

It's surprisingly easy to install a made to measure sliding wardrobe system. Simply measure the space you're going to use for your wardrobe, give us your measurements and we'll make your doors and track sets to just the right size. Fit your bottom track, then the top one and pop the doors into the track. That's it! A beautiful and stunning wardrobe in a few simple steps.

Fitting to ceiling and wall to wall. Measure your opening height and width at the five points indicated on the diagram. (Please note: Take into account any obstructions such as coving, skirting, radiators etc. either remove them or build an unobstructed opening around them).

HEIGHT: If there is any difference between the measurements of A, B or C, this means that your ceiling and floor are not parallel. Your track sets will allow for a difference of +/- 12mm. Doors will be made to fit the smaller of the 3 height dimensions.

WIDTH: Walls should be as vertical, and parallel as possible when adjustment in the door is needed. Doors will be made to fit the larger of the two width dimensions.

Fitting to a doorway or window opening

Fitting with a side panel

Reducing your ceiling height (if room is higher than 2480mm)
